

How the Lowest Cost Liquid Fuels
Burn as Cleanly as Natural Gas

Fuel Flexibility for Cheaper Energy and
Low Emissions for a Cleaner Environment

The LPP System provides optimum
Fuel Flexibility and **Fuel Savings** with **Low Emissions**
when burning alternative fuels, such as

- No. 2 Heating Oil
- No. 2 Diesel Fuel Oil
- Kerosene
- Coal Derived Liquids
- Biomass Derived Liquids
- Biodiesel
- Ethanol
- Methanol
- Waste Chemicals
 - Naphtha
 - Glycerin
 - Others

The LPP System can provide **Fuel Flexibility**
to many markets, including

- Combustion Turbines
- Industrial Dryers, Burners, etc.
- Gas and Combustion Boilers
- Commercial Heating
- Residential Heating.
- Transportation
